- Name and fax number of imaging facility where the procedure will be performed
- Name and CPT code of imaging procedure
- Reason (indication) for the imaging procedure and/or ICD-9 diagnosis code
- Patient symptoms and duration
- Patient medication and duration
- Prior imaging study
- Prior laboratory study

#### **Helpful Tips for Office Staff:**

- Access to patient chart or office-visit notes when requesting consultation saves call time.
- Ensuring that the ordering physician has quick access to the patient's chart whenever a consultation is elevated to a peer-to-peer physician review and a follow-up call by the HealthHelp reviewing physician is expected.
