

Medica Provider Fact Sheet on Medica FocusSM

Overview

Medica has introduced a new product called Medica FocusSM that utilizes a “Home Clinic” provider network in the 8-county metro area – i.e., Anoka, Carver, Dakota, Hennepin, Ramsey, Scott, Washington and Wright counties. Members will choose a home clinic as their primary care clinic or “medical home” during their enrollment. Members will have open access within the Focus network and will not need referrals. Each member of a family may choose a different home clinic and may change this selection monthly.
